There is a SMP that was done in cooperation with Douglas County and several other cities. I did not see any programmatic evaluation of existing or future needs for launches within the SMP, but the following objectives were contained within the plan:

2.4 Recreation element – Objectives

1. Give priority to water-oriented shoreline recreational development that is primarily related to access, enjoyment and use of the water and shorelines of the state.

7. Encourage federal, state and local governments to develop existing sites and to acquire additional shoreline property for public recreational use.

Bob,

Do you know if there is a shoreline management plan in place for the Bridgeport area? I'm curious if there has been a programmatic evaluation of existing and future needs for boat launches in the project area.

The Washington Department of Fish and Wildlife has prepared the attached DNS in accordance with the State Environmental Policy Act regulation. This DNS is being circulated for review by all agencies with jurisdiction.

We appreciate your review of the proposal and return of comments no later than **July 29, 2013**. This proposal will not be acted upon before that time.
